Reference: Wildlife Impact Summary - December 1993

Dear Mr. Hedberg:

We have no wildlife mortality to report during the month at our mine site.

No leaks from leak detection systems were reported.

The new 5,000,000 gallon fresh water pond was completed. An eight foot high deer fence was completed around it and also around the rinse water pond. Damaged bird netting on the rinse water pond was not repaired as per written approvals by the BLM and UDOGM and a verbal approval by DWR.

Sincerely,

USMX OF UTAH, INC.
